*Machine Learning Engineer | AWS ML Certified*

Developing impactful machine learning solutions with Python.

Focused on long-term, meaningful projects.

65+ projects completed, \$200k billed, 3.5k hours worked.

# CUSTOMER REVIEWS

Bogdan Lupu

"I've worked with Adam for almost a year and he has been **one of my favourite colleagues ever**. He is **very skilled on the technical side and a fantastic communicator**. His mere presence in the team greatly improved the way everyone works together and the general mood during our team meetings. I hope everyone gets to work with someone like Adam at some point in their career!"

Andrew Greene

"Adam's consultation was highly helpful. **His insights into the development of a processing solution were incredibly valuable** and his technical approach was very well received. Overall, **Adam's consultation provided valuable direction and clarity**, and we look forward to the possibility of working with him in the near future!"

Antoine Marshall

"My experience with Adam was great ! **We worked on a very ambitious project and he handled it extremely well**. He took time to understand the scope of the project and **did not hesitate to go the extra mile to deliver something great**. He would definitely be a great asset for your project."

Xavier Reed

"**Perfect work**, in addition to being a good programmer, **he is a gifted communicator** ensuring a **good understanding of the objectives** and priorities of the project, until the transfer of the delivery to use it and maintain it correctly"

Lila Dawson

"Adam is the ultimate freelancer. **He's committed, value-oriented, optimistic, fast, skilled, and positive.** I LOVE working with him!"

Sam Griffin

"**I had a truly beneficial consultation with Adam.** He was able to address all my concerns and **provide clear guidance** on the next steps for my project. **Highly recommended!**"

Christian Mayer

"Great & blazingly fast freelancer with **high-quality work!**"

**"I hired Adam multiple times.** He submitted **quality work every single time.** Highly recommended freelancer!"

"Great freelancer! Thanks for the **outstanding work!**"

**"I cannot think of any better freelancer.** Adam is particularly skilled in writing technical blog content and creating engaging videos. Highly recommended freelancer!"

"Adam is the best content writer for programming content I've ever hired (and I hired some). **He's fast, reliable, motivated, engaging,** and produces high-quality content. Couldn't be any better!"

Liam Foster

"Had a **great experience** working with Adam! **Prompt to reply, fast and efficient work**, asked the right questions, **addressed feedback in a timely manner**. Great collaborator and extension to our team on this project!"

Yannick Hayes

"Adam is a **very talented, comprehensive and flexible freelancer** to work with. He has a **broad technical knowledge and strong ability to communicate**. I would warmly recommend him were you either at the beginning or stuck in the middle of your project !! **I will definitely hire him again.**"

Jo-fai Chow

"I had the pleasure of working with Adam on several projects in the past and was consistently impressed by his skill and expertise in the field of machine learning. Adam has a **strong understanding of the latest techniques and technologies in machine learning** and is able to apply this knowledge to solve complex problems. Overall, **I highly recommend Adam for data science / machine learning projects.** He is a talented and dedicated professional."

Ayushi Joshi

"Adam is attentive, efficient and a delight to work with! Adam's **data science knowledge is vast and he is always eager to tackle new problems and issues**. He is also eager on sharing his knowledge and is **extremely comfortable articulating methods and ideas** he has."

## Evan Mitchell

"**Adam did a great job of starting off on the right foot** by suggesting we start with a call and making it very easy to schedule. Process-wise, he described what he would be doing in great detail. He is **very easy and enjoyable to talk with**. He developed a correlations chart and regression model as per my request. It was **a tricky problem that had stumped a few of my Stanford friends and he analyzed it with a log regression model**. After, we had another video chat where he walked me through everything he did and the results he had found which I greatly appreciated."

## Rosie O'Donoghue

"**Adam was a joy to manage and great addition to the team.** Bright and energetic, "always contributing - **he'd make an asset to any project he were to join!"**

## Miles Harrington

"Adam is an excellent person, **he doesn't support only the tasks he needs to deliver, but also involves in thinking process on how to get there**. I enjoyed collaborating with him very much and look forward to the next opportunity to collaborate with him!"

Owen Brooks

"Adam was **very helpful throughout the process** and professional. He was **able to offer different solutions**, insight into our problems, and **also value engineer in order to save on costs.**"

Sudhakar Gupta

"Adam **understood the requirements** & delivered **very high quality work** within no time."

Dani Richards

"Great contractor."

Jeff Warren

"Adam is **very smart and has a great attitude**. He is thorough in data exploration and forms very **well-thought-out and tested hypotheses**. Recommended!"

Waylon Whitfield

"Great communication, **rapid progress** and a successfully completed project."

Josh Ellis

**"Excellent work** that really helped"

"Adam is **great at what he does** and we found his help and advice invaluable - **if you need an expert, Adam is the man**"

Johnny Nash

**"If you need someone to take care of your python project Adam is the right person to hire.** He is professional and really efficient with his work. It was a pleasure working with him. Highly recommended!"
